RE: IAG Work Plan for the ACS NPL Site
Griffith, Indiana

Dear Mr. Hudak:

I have reviewed the work plan prepared by your office for work to be performed at the American Chemical Services NPL site in Griffith, Indiana. The work plan was prepared in accordance with the Statement of Work which was included with the Interagency Agreement package sent to you in November 1989.

After reviewing the work plan, I find it to be quite satisfactory and find no reason for any review or comment. Accordingly, the work plan is approved. I look forward to working with yourself, Robin Nims and Dan Sparks to complete a quality, comprehensive study of the wetlands associated with the ACS site. On a related note, I would like to schedule a meeting with your office and the PRP group, to discuss the work which FWS will be performing at the site. I would appreciate hearing from you soon to arrange logistics for the meeting.

To arrange the meeting time and place, please call me at (312) 886-5116.

Sincerely,

Robert E. Swale, RPM
